#### Brief Report/Summary of Activity:-

The National Service Scheme (NSS) Unit of Tulsiramji Gaikwad-Patil College of Engineering & Technology organized Swachh Bharat Abhiyan. In the event, the students of various branch participated in cleaning the surrounding college campus and Mohgaon village. The event was coordinated by Mr. A. C. Fulzele, NSS Programme Officer, TGPCET.

To accelerate the efforts to achieve universal sanitation coverage and to put focus on sanitation, the Prime Minister of India, Shri Narendra Modi, launched the Swachh Bharat Mission on 2nd October, 2014. The Mission Coordinator shall be Secretary, Department of Drinking Water and Sanitation (DDWS), Ministry of Jalshakti with two Sub-Missions – the Swachh Bharat Mission (Gramin) and the Swachh Bharat Mission (Urban). The Mission aims to achieve a Swachh Bharat by 2019, as a fitting tribute to Mahatma Gandhi on his 150th birth anniversary.

Prime Minister has helped spread the message of Swachh Bharat by urging people through his words & action. He carried out a cleanliness drive in Varanasi as well. He wielded a spade near River Ganga at Assi Ghat in Varanasi under the Clean India Mission. He was joined by a large group of local people who cooperated in the Swachhta Abhiyan. Understanding the significance of sanitation, Prime Minister, Shri Narendra Modi has simultaneously addressed the health problems that roughly half of the Indians families have to deal with due to lack of proper toilets in their homes.

**Outcome of Event:-** To accelerate the efforts to achieve universal sanitation coverage and to put focus on clean surrounding.

### Brief Report/Summary of Activity:-

TGPCET-NSS Unit has taken the initiative to plant more and more trees as trees are the real friend of human being. The tree plantation program was inaugurated at the hands of Dr. Mohan Gaikwad (Chairman, Gaikwad-Patil Group) at the institute on 15<sup>th</sup> August 2017. The volunteer of TGPCET-NSS Unit has taken an oath of planting and nurturing more and more number of trees during the program. Prof. Ashwadeep C. Fulzele, NSS Program Officer, TGPCET-NSS Unit took the responsibility of nurturing all these trees from NSS Unit.

Trees play an important role in an ecosystem by maintaining ecological balance and equilibrium. Trees hold the soil in which they grow. As a result the fertile top soil is held securely; otherwise it may get drained or washed away in water such as during rains and floods. Trees are the natural habitat for many wildlife species that includes mammals, birds, reptiles and insects. Trees play a vital role in climate. A micro-habitat formed by planting trees can create a green and natural area, and a micro-climate that is healthy for all the life forms, including man, that inhabit the area.

**Outcome of Event:-** It is very important to save trees. Planting trees helps in increasing the green cover of the Earth, and improve the environment. Trees play an important role in an ecosystem by maintaining ecological balance and equilibrium.

The National Service Scheme (NSS) Unit of Tulsiramji Gaikwad-Patil College of Engineering & Technology organized Green Campus-Clean Campus. In the event, the students of various branch participated in cleaning the surrounding college campus and Mohgaon village. The event was coordinated by Mr. A. C. Fulzele, NSS Programme Officer, TGPCET.

All of us live in a neighbourhood or surrounding. We must keep our surroundings neat and clean. This will help us to live healthy and better lives. Keeping our surroundings clean will only help in the betterment of society.

Every household generates waste or garbage. Now, waste or garbage should not be thrown anywhere, and everywhere, but only in trash bins. Throwing garbage all over the place will only dirty our surroundings and pollute the environment. Controlling the use of plastic bags will also help to keep our surroundings clean. One should use recycled and eco-friendly products such as paper or jute bags instead of plastic bags. Throwing of plastic bags by the roadside only makes our surroundings dirty and unhygienic. Plastic bags are not soluble so they clog drains and cause water logging.

**Outcome of Event:-** The students learned the importance of cleanliness and greenery nearby that gives soothing experience to live stress free.

### Brief Report/Summary of Activity:-

The National Service Scheme (NSS) Unit of Tulsiramji Gaikwad-Patil College of Engineering & Technology organized Hygiene Awareness Programme on 5<sup>th</sup> May, 2015. In the event, the students of various branch participated in cleaning the surrounding college campus and Mohgaon village. The event was coordinated by Mr. A. C. Fulzele, NSS Programme Officer, TGPCET.

It is said, "Hygiene is next to godliness." It is because we can achieve nothing physically, mentally or spiritually if we are unclean in our body, mind, or soul. Nobody likes an unclean child or adult and a clean one is loved, desired and respected everywhere.

First of all, we should keep our body clean. We should have a daily bath with toilet soap or shampoo well-applied to all parts of our body and hair so that not a speck of dust or a drop of perspiration keeps sticking to us. We will feel unpleasant and lethargic instead of being alert. Hygiene is also very important for good health. A large number of bacteria keep sticking to our bodies and clothes. If we do not wash them regularly, we can acquire several diseases. Dirty and unwashed clothes are not only a source of bad smell, but also, these are hotbeds for disease causing germs. We should brush our teeth and comb our hair regularly.

**Outcome of Event:-** The message of hygiene that affects the health is learned.

### Brief Report/Summary of Activity:-

.A voluntary blood donation camp was organized by TGPCET-NSS Unit on 18<sup>th</sup> July 2015 in college campus. During the camp around 58 youth and the college staff came forward to donate the blood along with the Chairman of the Group, Dr. Mohan Gaikwad-Patil took active initiative and came forward to donate blood.

The camp dated on 18<sup>th</sup> July 2015 was inaugurated by the hands of Dr.Mohan Gaikwad-Patil, Chairman, GPG and Prof.Sandeep Gaikwad ,Treasurer, GPGI. While addressing he said that a healthy adult could donate blood three or four times in a year. Donating blood is a vital way to help save lives. Along with helping save lives, there are a number of reasons why donating blood is important. Despite medical and technological advances, blood cannot be made, so donations are the only way we can give blood to those who need it. He also addressed other fears and misconception regarding blood donation. The special appreciation was given to NSS Unit by Shri. Anil Hood, Executive Director, GPGI. Prof. Ashwadeep C. Fulzele , Program Officer, TGPCET-NSS Unit organized blood donation camp in healthy atmosphere.

**Outcome of Event:-** Blood donors are a critical life-line for millions in the country. One thing that all blood donors have in common is a feeling of pride, knowing that the blood they donated will have a profound impact on someone who is in need, making blood donation an essential duty of our citizenry.

### Brief Report/Summary of Activity:-

TGPCET NSS Unit organized Gram Swachhata Abhiyan on 3<sup>rd</sup> September 2014. Volunteers have cleaned Mohgaon villages streets. Also counseled the villagers for maintaining the hygiene conditions. It a creative and collaborative platform to make the nationwide movement a resounding success. The platform brings together all collective efforts of citizens as well as organisations towards the mission with the help of technology. Any individual, a government institution or private organisation can participate in the mission. The mission aims to encourage people to devote some hours out of their daily activities and work towards cleanliness of India.

Mahatma Gandhi communicated a quintessential message to the nation through his efforts to educate people around him about cleanliness. He wished to see a "Clean India" where people work hand in hand to make the country clean.

India is still lagging far behind many countries in the field of environmental sanitation. The unsanitary conditions are appalling in India and need a great sanitary awakening similar to what took place in London in the mid-19th century. Improvement in sanitation requires newer strategies and targeted interventions with follow-up evaluation.

The need of the hour is to identify the existing system of environmental sanitation with respect to its structure and functioning and to prioritize the control strategies according to the need of the country. These priorities are particularly important because of issue of water constraints, environment-related health problems, rapid population growth, inequitable distribution of water resources, issues related to administrative problems, urbanization and industrialization, migration of population, and rapid economic growth.

Environmental sanitation envisages promotion of health of the community by providing clean environment and breaking the cycle of disease. It depends on various factors that include hygiene status of the people, types of resources available, innovative and appropriate technologies according to the requirement of the community, socioeconomic development of the country, cultural factors related to environmental sanitation, political commitment, capacity building of the concerned sectors, social factors including behavioural pattern of the community, legislative measures adopted, and others.

**Outcome of Event:-** The message of proper sanitization given to students.

.First of all, we should keep our body clean. We should have a daily bath with toilet soap or shampoo well-applied to all parts of our body and hair so that not a speck of dust or a drop of perspiration keeps sticking to us. We will feel unpleasant and lethargic instead of being alert. Hygiene is also very important for good health. A large number of bacteria keep sticking to our bodies and clothes. If we do not wash them regularly, we can acquire several diseases. Dirty and unwashed clothes are not only a source of bad smell, but also, these are hotbeds for disease causing germs. We should brush our teeth and comb our hair regularly.

It is said, "Hygiene is next to godliness." It is because we can achieve nothing physically, mentally or spiritually if we are unclean in our body, mind, or soul. Nobody likes an unclean child or adult and a clean one is loved, desired and respected everywhere

**Outcome of Event:-** The message of hygiene that affects the health is learned.

#### Brief Report/Summary of Activity:-

The National Service Scheme (NSS) Unit of Tulsiramji Gaikwad-Patil College of Engineering & Technology organized Health Checkup Campaign in the institute for students and all the staff of the institute. The event was coordinated by Mr. A. C. Fulzele, NSS Programme Officer, TGPCET.

Free medical camps are set up with a sacred aim to bring awareness amongst the deprived population of the country who have no access to basic healthcare services or knowledge about the diseases they are suffering from. So, medical camps provide free medical advice, medicine to the unfortunate people and refer for specialized treatment or surgery whenever it is required. These camps make sure people are getting the healthcare at the right time, and seeing the doctor early enough before a small health problem turns serious.

**Outcome of Event:-** The message of health is wealth given among the students.
