(An Autonomous Institution Affiliated to RTM Nagpur University, Nagpur)

Department of Masters of Business Administration

Course Name MMB1204: Financial Management

MMB1204	Course Outcomes
CO1	Calculate specific cost of capital (i.e. Cost of debt, preference, equity and retained earnings) and the weighted average cost of capital for any specific given firm.
CO2	Analyze the effect of operating and financial leverage.
CO3	Estimate projects' cash flows to distinguish between value creating and value destroying investments using time-value intensive DCF techniques.
CO4	Apply the components of current assets and current liabilities and determine the gross and net operating working capital requirement.
CO5	Compute the value of a share using various dividend discount models and illustrate whether dividend is relevant for firm valuation or not.
