Department of Information Technology

(M.Tech. Artificial Intelligence & Machine Learning)

Course Name MAI1111: Human Computer Interface (Professional Elective-II)

MAI1111	Course Outcomes
MAI1111.1	Summarize an overview of the concepts relating to the design of human-computer interfaces in ways making computer-based systems comprehensive, friendly and usable.
MAI1111.2	Demonstrate the theoretical dimensions of human factors involved in the acceptance of computer interfaces.
MAI1111.3	Explain the important aspects of implementation of human-computer interfaces.
MAI1111.4	Evaluate the various tools and techniques for interface analysis, design, and evaluation.
MAI1111.5	Design the impact of usable interfaces in the acceptance and performance utilization of information systems.
