**Action Taken Report on feedback of VIII Semester**

Issue No.	Issue	Action Taken
1	Faculties should solve more numerical based questions in class.	Discussion was held in departmental meeting in order to take more problems in the class wherever applicable.
2	More classes should be taken on digital board.	Already the faculties have started taking more lectures in digital classroom.
3	Increasing counseling session for the students.	It has been decided to increase the no. of meetings under mentor-mentee scheme which will help to solve more no. of problems related to students.
4	Use of Audio Video aids in classroom.	The faculties are already using audio-video aids in the classroom, but as per the students' suggestions it will be increased in next semester.
5	Industrial visits & experiments	Students are visiting at least two industries in a semester, but if students require more visits then planning will be done to arrange 3 visits instead of two. As now the labs are properly set up the practicals from next semester will be conducted as per the time table.
6	Providing notes to students.	Already the faculties are providing soft copies of notes to students but then also if students are having issues related to the notes then it will be resolved.
