SYLLABUS

In continuation to semester VII work, the group of the students shall collect all necessary information pertaining to the project and analyses it. The group of the students shall prepare and submit a detailed report on the project.

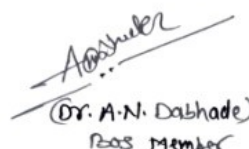

The report shall be type written on A4 size papers and hard bound as per prescribed norms.

Broadly the report shall include: Introduction, Literature Review, Problem definition, Data collection and analysis, Results (Numerical / Experimental), Conclusions and discussions.

Acquaintance with survey and research methods and their use in conducting systematic investigations, use of data analysis tools, computational methods and style of report, preparation and presentation shall form basis of evaluation. The group shall prepare and present a seminar based on this work before an external examiner.

List of Course Objective	
1	To increase the knowledge and understanding of the disaster phenomenon, its different contextual aspects, impacts and public health consequences.
2	To increase the knowledge and understanding of the International Strategy for Disaster Reduction (UN-ISDR) and to increase skills and abilities for implementing the Disaster Risk Reduction (DRR) Strategy.
3	To ensure skills and abilities to analyse potential effects of disasters and of the strategies and methods to deliver public health response to avert these effects.
4	To ensure skills and ability to design, implement and evaluate research on disasters.

List of Course Outcome	
After completion of syllabus student able to	
1	Capacity to integrate knowledge and to analyse, evaluate and manage the different public health aspects of disaster events at a local and global levels, even when limited information is available.
2	Capacity to describe, analyse and evaluate the environmental, social, cultural, economic, legal and organisational aspects influencing vulnerabilities and capacities to face disasters.
3	Capacity to work theoretically and practically in the processes of disaster management (disaster risk reduction, response, and recovery) and relate their interconnections, particularly in the field of the Public Health aspects of the disasters.
4	Capacity to manage the Public Health aspects of the disasters. Capacity to obtain, analyse, and communicate information on risks, relief needs and lessons learned from earlier disasters in order to formulate strategies for mitigation in future scenarios with the ability to clearly present and discuss their conclusions and the knowledge and arguments behind them.
5	Capacity to analyse ,design and perform research on the different aspects of the emergencies and disaster events while demonstrating insight into the potential and limitations of science, its role in society and people's responsibility for how it is used.

SYLLABUS

Unit-I : Disaster Management
Disaster and Disaster Management - Concepts
Issues Concerned with Disaster Management
Phases of Disaster Management
Types of Disasters-An Introduction
Natural Disaster, Man-made Disaster
Unit-II : Disasters Case studies & Disaster Management in India - An Over View
Bhopal Disaster : A Case Study
Slow onset Disasters & Rapid onset Disasters
Simple and Complex Disasters
Tsunami : A Case Study
Cyclone Phallin 2013: A Case Study
Evolution of Disaster Management in India, Disaster and Disaster Management in India
National institute of Disaster Management, National Disaster Management Act 2005, The National Policy on Disaster Management, 2009
Unit-III : Refugee Problem
National Plan on Disaster Management 2016
Refugee Problems
Impact of Disaster on the lives of Refugees
Problems of Women and Children during disasters
Principles of Psychosocial Care, Issues And Recovery During Emergency
Relationship between Disasters, Development and Vulnerabilities
Equity Issues in Disasters
Issues of Rehabilitation and Resettlement among the Disaster Survivors
Unit-IV: Stakeholders in Disaster Relief Management
Stakeholders in Disaster Relief Management - An Introduction
Central Government, State Government, District Administration, Armed Forces, Para-Military Forces, Fire Services
Unit-V:Disaster Risk Reduction
Disaster Risk Reduction Strategies, Risk Reduction Preparedness Plans
Action Plans and Procedures, Early Warning Systems, Components of Disaster Relief
Factors contributing to Vulnerability, Disaster Risk Reduction - Master Planning for the Future,

Capacity Building Rehabilitation measures and long term reconstruction
Understanding Kerala Disaster 2018
